

Things are going to get **very quiet**
for a **short time**
in **Frankfurt** am Main
at the **end of October**.

**Line closure Frankfurt Central Station – Frankfurt Airport
7:30 p.m. on 25 October – 2:30 p.m. on 26 October 2019**

**Complete line closure around Frankfurt Central Station
2:30 a.m. – 9:30 a.m. on Saturday, 26 October 2019**

New control-command and signalling technology is necessary for the upgraded Homberger Damm track section in Frankfurt's Gallus neighbourhood, the Stadion junction and the Gateway Gardens S-Bahn connection. Before this technology can go live, we must also install new software and run safety checks. To perform this work, we will **close the line between Frankfurt Central Station, Stadion and Frankfurt Airport from 7:30 p.m. on Friday, 25 October until 2:30 p.m. on Saturday, 26 October 2019.**

In addition, we will **close all lines to/from Frankfurt Central Station (incl. the main S-Bahn tunnel) from 2:30 a.m. – 9:30 a.m. on Saturday**, the line between Höchst and Frankfurt Central Station will remain closed until 2:30 p.m. on Saturday:

- **Local trains** will either not operate or end their journeys at the edge of Frankfurt's urban area.
- A comprehensive rail replacement service with buses will operate to/from Frankfurt Central Station.
- U-Bahn, tram and bus services will not be affected by the closures. Passengers can use these forms of transport as usual within central Frankfurt on Saturday morning.
- Most **long-distance trains** will be rerouted and use Frankfurt (Main) Süd as a replacement stop. In certain circumstances, some trains may be cancelled or routes may be shortened.

You can find all of the construction-related timetables in our information systems. **We recommend that you take a look at this information.** We apologise for any inconvenience or lengthier journeys caused by this work.
